

# Smart Charge Wireless Power Bank 5000 with Suction Cups

TTAPK11

A whopping 16 mini suction cups deliver a strong hold on a smartphone, while the 5000mAh, 5W power bank wirelessly charges any Qi-enabled device. The lowprofile, suction cup design and smartphone together are slim enough to put in a pocket or clutch. While the suction cups create a connection with the smartphone, the front of the power bank creates a lasting bond by showcasing brands in full-color.
